To Whom It May Concern:

This is a letter of recommendation for Daniel L. Comfort and the auditing services he provides. Having had similar auditing services performed in the past with the same outline as Dan's, these have proven to be very profitable. They have yielded both an immediate cash refund coupled with monthly savings as well.

I have known Dan for years, having met him through another business friend. He has saved money with Dan's help on his phone bills with both his local and long distance charges. I have also experienced the same type of savings with Dan's services.

Dan has now added another service, which is analyzing electric bills to his consulting company. I told Dan about my previous success using another firm years ago for just that and the great savings I received. And base on that I though K-FAB would be the most unlikely to spend his time on. I asked him to look at my other three companies. Upon doing so, Dan found savings in one out of three companies yielding a savings of over \$3,000.00 in the first year. He then took a look at K-Fab. Well, I have to tell you, you know the saying, **NEVER SAY NEVER!** Dan not only found a savings of **over \$2,200.00 per month**. I was told that K-Fab, Inc. to this date, received the highest one time credit to a company totaling **\$ 83,750.94!!!!!!!!!!!!!!** (See attached copy)

With that being said, it goes without saying that I would highly recommend Mr. Dan Comfort and the use of his consulting services.

Sincerely,

Martin Koch
