To whom it may concern:

This is an endorsement for Dan Comfort and Comfort Profit Consulting, Inc.

We have worked with Dan for years now; the result has been our profits have been increased by hundreds of thousands of dollars annually.

Dan has worked with us in several areas including Telecom, Electric utilities, and tax benefit evaluation.

Dan has also assisted us in areas he was not being compensated for; he advised us when we purchased a new phone system and gave input with our solar system and some issues we had there.

Our experience has been nothing but positive; since Comfort Profit Consulting only gets paid when they produce positive results, we recommend every manufacturer and business utilize their services.

Sincerely,

Josh Blyler
Vice President
Big B Manufacturing, Inc.
